

# A Series Chain Actuators

24Vdc or 230Vac Chain type actuator with adjustable travel. Adjustment of stroke in 7 positions from 100mm to 400mm in 50mm increments. Strong die-cast aluminium body with rigid or pivot fixing options and various brackets and extension pins to suit most applications.

A robust, centrally positioned double link stainless steel chain with an acoustic device that warns of any eventual incorrect installations. All electrical parts are double insulated and supplied with 1.5m cable. Standard colours: White (RAL 9010), Grey (RAL 9006), Matt Black

## VOLTAGE SUPPLY

**230 Vac**

**24 Vdc**

## STROKE

**100 - 400 mm (50mm steps)**

**100 - 400 mm (50mm steps)**

## ELECTRIC CONNECTION

**3 core**

**2 core**

## DOUBLE INSULATED

**Yes**

**No**

## OPERATION

**drive open - drive close**

**by polarity inversion**

## FORCE (PUSH ACTION)

**350 N**

**350 N**

## SPEED

**~ 28 mm/s**

**~ 18 mm/s**

## CURRENT ABSORPTION (WITH MAX LOAD)

**0,32 A**

**1.35 A**

## PROTECTION CLASS

**IP 55**

**IP 55**
