

# CALL POINTS & DETECTORS

## Smoke Detector

Features a removable, high performance smoke chamber which allows the detector threshold level to be increased. This improves signal to noise ratio and reduces susceptibility to false alarm.

Site cleanable for easy maintenance.

Remote indicator output. Range of mounting bases. Low profile design.

## Call Points

A complete range of call points and over ride switches. In yellow coloured surface or recess enclosures labelled:

“Smoke Vent” or “Firemans Override”.

Standard Break Glass - BGS

Resettable Break Glass - BGSR

Firemans Override Switch - BG-FOS

Firemans Override Key Switch BG-KS

Cover-BGFOSC
